# Implementation of the project Action in the field of education, teaching and learning. Development of an environmental and ecological magazine in the digital cloud: Time Magazine 2022/ECOLOGICAL 2022 SPAIN 07-09.12.2022

A themed exploration of Gibraltar's nature. The Rock of Gibraltar - a Jurassic limestone mountain, formed as a result of uplifts that occurred about 55 million years ago, after the collision of the African tectonic plate with the European one. Upper Rock Reserve - a unique place inhabited by Barbary macaques - they are the only free-living monkeys in Europe. Nature - vegetation typical of Mediterranean areas.

Ecological solutions in Malaga – Plants on buildings improve the microclimate: they produce oxygen, absorb carbon dioxide, retain air pollution and increase humidity. They are irreplaceable in cities, where small gardens are established on small plots, in which there is usually only room for dwarf trees and small shrubs. Park in Malaga - a garden full of tropical trees and shrubs that resemble a small jungle.

# IMPLEMENTATION OF THE PROJECT - ON THE WAY FOR WORK - SOCIAL ENTERPRISE AND ITS ROLE IN PROFESSIONAL ACTIVATION

Project participants, through their partner organizations, organized meetings in local communities with entrepreneurs, local government officials, young people entering the professional market, especially with socially excluded people and with representatives of public, private and social labor market institutions, on setting up social enterprises by young people .

# IMPLEMENTATION OF THE PROJECT - OUR ECOLIFE - TIME FOR HEALTH - A SOCIAL CAMPAIGN FOR A HEALTHY LIFESTYLE

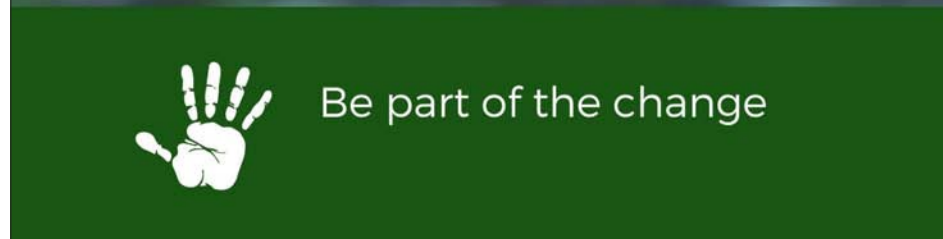

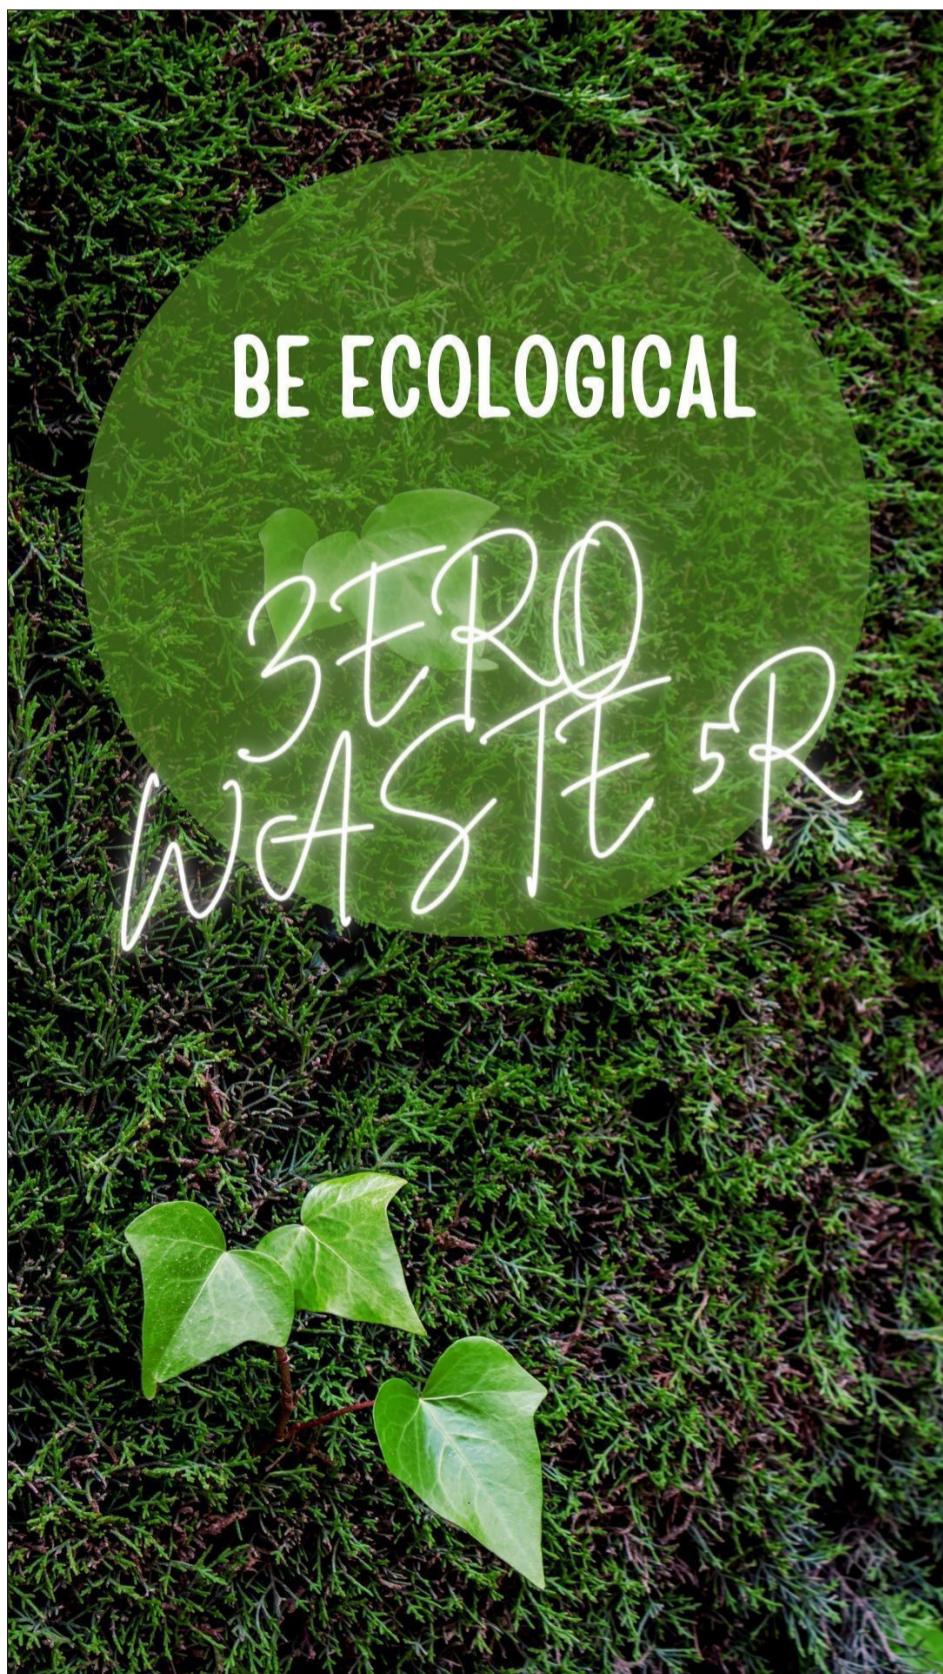

The action consisted in carrying out a social campaign by a project group of young people from each partner organization in the local community, related to the promotion of a healthy lifestyle through physical activity and proper nutrition. The campaign was carried out in any way that promoted activity and healthy eating.

# IMPLEMENTATION OF THE PROJECT - 100 WAYS FOR A GREENER LIFE

The action consisted in carrying out a social campaign by a project group of young people from each partner organization in the local community, referring to ways to live more ecologically.

# IMPLEMENTATION OF THE PROJECT ACTION IN THE FIELD OF EDUCATION, TEACHING AND LEARNING ENVIRONMENTAL EDUCATION - CLIMATE, ENVIRONMENT AND ENERGY SLOVAKIA 20-22.03.2023

At the premises of the partner organization E-Code from Slovakia, an international meeting was held with the participation of 27 people, dedicated to the climate: Why is our climate changing? Is climate change a threat to us? What can we do for the climate? Climate change and the ecological, social and political perspective. Causes, effects and actions to protect the climate; Environment: Sources of environmental pollution. Nature and human. Consumer education. Greendrama – Finnish method of environmental education. Ecology in everyday life; Energy: Types of energy. The importance of renewable energy sources. Is it worth saving energy? How energy changes our lives. In addition, the project group explored ecological and natural resources of the Slovak region thematically.

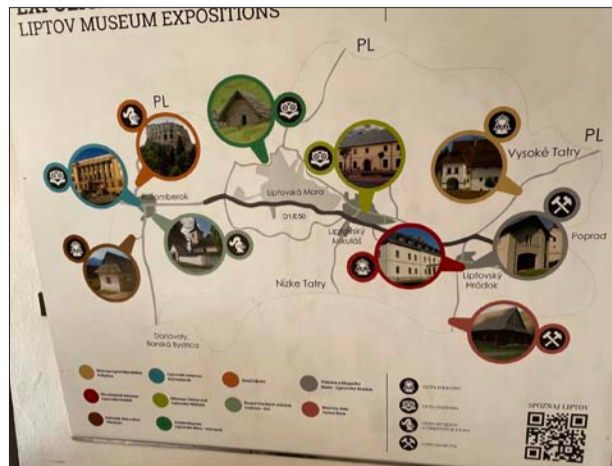

During the meeting in Slovakia, project youth discovered the ecological and natural resources of Liptovský Ján. Liptovský Ján is located at an altitude of 654 m above sea level, about 8 km east of Liptovský Mikuláš. It lies on the southern edge of the wide Liptov valley and the foothills of the Nízke Tatry (Low Tatras) foothills. On the southern edge of the village there is an area of natural mineral and hot spring waters. The water flowing out of them is classified as a cold hot spring. It has a lot of carbonates and nitrates, which means it is slightly mineralized.

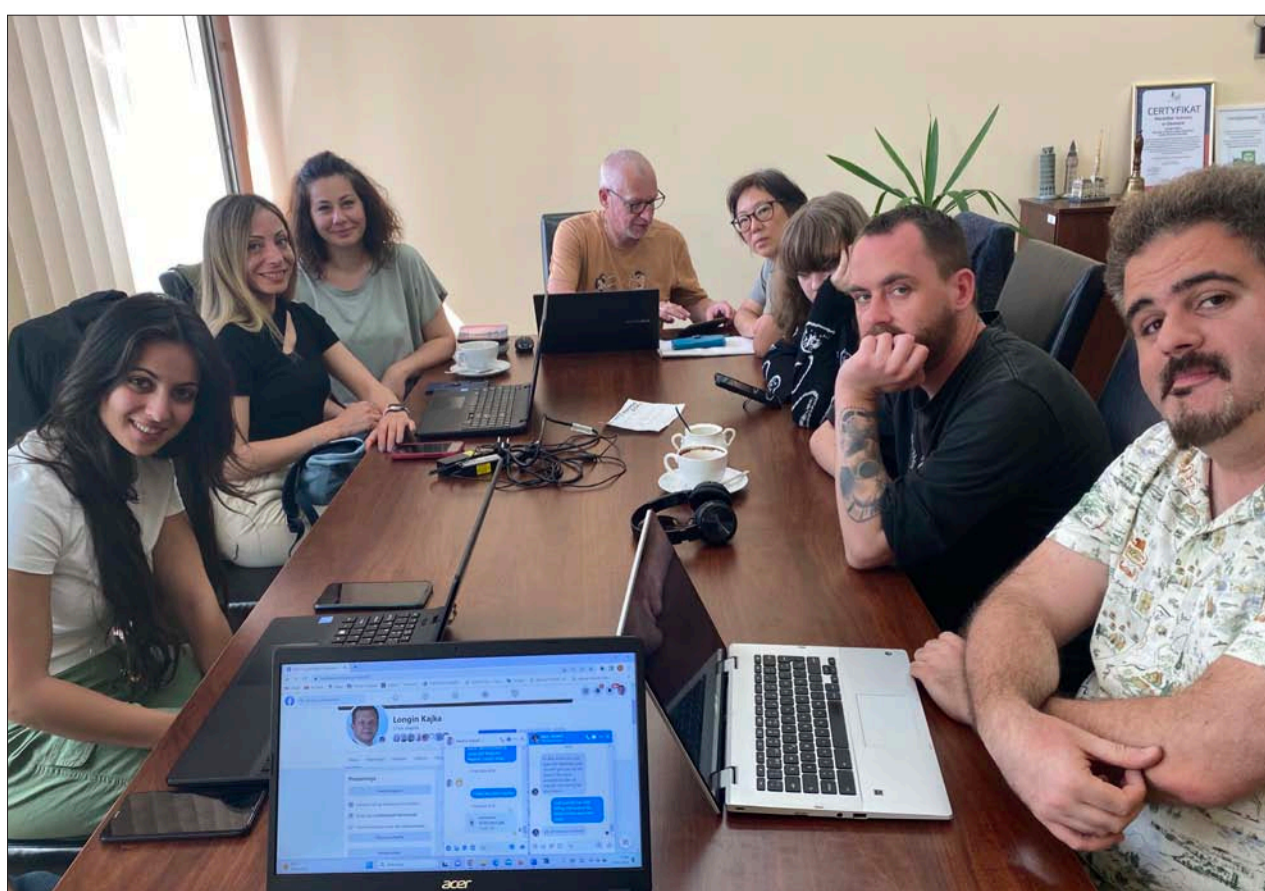

Acquisition of natural knowledge - Múzeum Čierny orol Liptovský Mikuláš in Slovakia. Slovak Museum of Nature Conservation and Speleology in Liptovský Mikuláš. The specialized museum is the only one of its kind in Slovakia. It presents the beauty of Slovakia's living and inanimate nature in three exhibitions - 'The Karst and Caves of Slovakia' exhibition; Nature conservation; Minerals - occurrence, use, protection.

# KA 210-YOU - SMALL-SCALE PARTNERSHIPS IN THE YOUTH SECTOR ERASMUS + PROJECT MANAGEMENT - INTERNATIONAL MEETING SUMMARIZING THE IMPLEMENTATION OF THE ECOLOGICAL 2022 PROJECT - 29/30.05.2023 - POLAND.

On the premises of the leading organization, the Foundation for International Economic, Cultural and Tourism Integration, an international two-day project meeting was held with the participation of 8 people representing the organizations participating in the project, two people from each organization. It was a meeting concerning the implementation of the project schedule, project results, dissemination of project results and evaluation. Two workshop sessions were held: 1/Results of mobility projects, their dissemination and the use of effective management; 2/Evaluation course. In addition, the participants of the meeting got acquainted with the rich nature of the Jata Reserve and the Wood Promotion Centre.
